

## New Con Ed Procedure Update

Attention all Contractors:

Energy Services is pleased to announce that you are now able to perform Final Connections on **all residential projects where service is deemed adequate.**

Here's what you need to know:

1. You can choose to purchase your own approved connectors or you can have your connectors mailed to you free of charge.
2. Once you receive the service layout, you will receive a Connector Request form to fill out.
3. You can connect on larger cable sizes (click here to see the eligible cable sizes).
4. This program is no longer limited to 1,2,3 family homes.

Our goal is to provide a fast and reliable way to assure that your jobs are progressed efficiently.

Thank you for being our valued customers and working with us as we transition into the future of Con Edison.

Thank you,  
Energy Services Team
